PROFESSIONAL SUMMARY

Mobile Developer with an end-to-end product engineering mindset, capable of taking an idea from a blank canvas to a production-ready mobile application. Experienced in every phase of the software lifecycle, including product strategy, UX/UI collaboration, architecture, Flutter development, backend integration, testing, deployment, and continuous evolution. I combine technical precision with product thinking to build scalable, maintainable, and user-centric applications that solve meaningful problems. I value ownership, engineering excellence, and continuous learning, and I enjoy delivering software that creates measurable impact for both users and businesses.

PROFESSIONAL EXPERIENCE

Mobile Developer & UX/UI Designer - Intern

Mars 2026 – Avril 2026

*JABB Mobile Application AI Voice of Customer Platform | Startup
Generovo – Casablanca , Morocco (On Site)*

- Engineered responsive and reusable mobile interfaces using Flutter (Dart), delivering a seamless and consistent user experience across Android devices.
- Designed high-fidelity wireframes, prototypes, and UI components in Figma, transforming business requirements into intuitive mobile experiences.
- Collaborated with cross-functional teams to implement user-centered features while maintaining clean, scalable, and maintainable code.
- Enhanced application usability and UI consistency by following Material Design

KEY PROJECTS

AutoBrain – AI-Powered Vehicle Diagnostics Application

December 2025 – May 2026

Kotlin • Jetpack Compose • Gemini API • TensorFlow Lite • ML Kit • MVVM • REST APIs

- Engineered an AI-powered Android application using Kotlin, integrating Gemini API, TensorFlow Lite, and ML Kit.
- Designed responsive user workflows and optimized application performance for seamless real-time AI interactions.
- Delivered AI-powered features through clean architecture and scalable mobile development practices

PowerTracker – Smart Electricity Monitoring Application - Hackathon of Hashgraph Association & Hedera Blockchain

December - 2025

Flutter • Dart • Riverpod • REST APIs • Hedera Blockchain • Clean Architecture

- Developed a cross-platform mobile application using Flutter and Dart, implementing scalable features with Riverpod and Clean Architecture.
- Integrated REST APIs and Hedera Blockchain services to support secure smart electricity monitoring and real-time data management.
- Collaborated with stakeholders to translate business requirements into high-quality, user-centered mobile features while following clean code and modern development best practices.

AWARDS & RECOGNITION

- 3rd Place — GITEX AFRICA 2026 (Ai4SDG Challenge)

Avril - 2026

 - Collaborated within a multidisciplinary international team to design and present an **AI-powered healthcare** solution addressing Sustainable Development Goals. (AI4SDG), **IRCAI** (International Research Centre on Artificial Intelligence) (UNESCO), GITEX AFRICA, and Manus AI.
- 2nd Place — Hackathon Innovation (ISMAGI / Euromed)

January - 2026

Java • python • Local LLM • AI • REST APIs

 - Developed **KEYCARE App**, AI-driven intelligent keyboard that identifies aggressive or risky messages and more .
- Finalist — Memory, Heritage, Innovation & Investment Hackathon (500+ candidates)

February - 2026

Flutter • Dart • AI • AR • Geolocation • 3D • Google Maps • REST APIs

 - Selected among the **Top 20** finalists with **Hikayaty App**, an AI-powered cultural storytelling platform featuring geolocation, AR, AI, 3D virtual characters, and an interactive marketplace to promote cultural heritage.

FREELANCE

- UX/UI Designer - SeatLr App

May 2026 – June 2026

SeatLr Mobile Application-Social app connecting flight travelers worldwide | SeatLr – Kuwait (Remote)

 - Designed the end-to-end UI/UX of the Seatlr mobile application using Figma, from wireframes to high-fidelity prototypes.
 - Built a scalable design system and collaborated with developers to deliver a seamless, user-centered experience.

TECHNICAL EXPERTISE

- Mobile Development** : Flutter, Dart, Kotlin, Java, XML, Jetpack Compose, Firebase, Android SDK,MVVM Architecture , Clean Architecture,FCM
 - State Management** : Riverpod , Provider , BLoC , GetX , ViewModel , StateFlow
 - Networking** : REST APIs , Retrofit , Dio , HTTP , JSON , WebSockets
- Architecture** : MVVM , Clean Architecture , SOLID Principles , Repository Pattern , Dependency Injection
 - AI / Machine Learning** : TensorFlow Lite, ML Kit, Gemini API, AI Model Integration, Real-time Diagnostics
 - DevOps & Tools** : Git, GitHub,Bitbucket, CI/CD , Bitrise, Play Store Deployment, TDD, BDD, JUnit, Espresso
- Firebase** : Authentication
 - Firestore , Realtime Database Cloud Messaging (FCM) , Storage , Analytics
 - Project Management & Tools** : Jira, Trello, ClickUp ,Android Studio , VS Code , Figma , Postman , Cursor AI , Antigravity
 - Design** : UI/UX Design , Wireframing , Prototyping , Design Systems , Responsive Design , User Flows , Developer Handoff

EDUCATION

- Specialized Technician Diploma in Digital Development – Mobile Applications

Sep 2024 – June 2026

 - Cite des metier et competence (CMC) Rabat-Salé-Kénitra
- Big Data and Business Intelligence

2023 – 2024

 - Sidi Bennour Faculty of Multidisciplinary Studies (FPSB)
- Baccalaureate in Physical Sciences

2022 – 2023

 - Lycee 6 November

SOFT SKILLS

Adaptability & Continuous Learning • Public Speaking & Presentation Skills • Critical Thinking • Communication Skills • Working Under Pressure • Product-Oriented Mindset • Creativity & Innovation • Leadership • Entrepreneurial Mindset • Time Management • User-Centered Thinking • Autonomy & Self-Motivation • Teamwork & Collaboration

LANGUAGES

Arabic (Native) • English - Advanced (B2) • French - Professional Working Proficiency (B2)
